

**CRYPTOGUNS**

# Gacha Games

- Genre of gaming based around obtaining virtual items and skins based on chance and rarity.
- Perfect combination with NFTs and NFT marketplace
- Popular games: Final Fantasy Tactics, Genshin Impact, Ark Knights

# General Overview

- Standard Gacha Pricing:
  - Mint price \$10:1 , \$50:5.

# Why No \$Gun Coin?

- A game that pays players in their own currency to play, will always have constant downward sell pressure
- Built on infinite growth
- A game can not pay its players to play it and be profitable for both

## Why Our Model Works

- Game no longer lives and dies by a coin
- Pay In NFTS = Constant flow of tradable of assets to the player
- Shifts dev focus to quality game-play

# ApeSwap Partnership

- A ready ecosystem for players to engage in
- Dex(decentralized exchange) where you can swap two crypto assets of your choice.
- Staking options in the form of farms, pools, vaults
- Initial Ape Offerings(Official and Self-Serve) to get in early on the latest projects.
- NFTs such as ApeSwaps NFA's (Non Fungible Apes)
- Golden Bananas! (GNANA) players can convert their Bananas into Golden Bananas for exclusive access to IAOs, higher APR farms and pools and more.
- Many partners that use Banana in their services
